

## Project Design Phase-I

### Solution Architecture

Date	01 November 2022
Team ID	PNT2022TMID40881
Project Name	Project - Industry Specific Intelligent Fire Management System
Maximum Marks	4 Marks

#### Solution Architecture:

Solution architecture is a complex process - with many sub-processes - that bridges the gap between business problems and technology solutions. Its goals are to:

- . Find the best tech solution to solve existing business problems.
- . Describe the structure, characteristics, behaviour, and other aspects of the software to project stakeholders.
- . Define features, development phases, and solution requirements.
- . Provide specifications according to which the solution is defined, managed, and delivered.
